## Town & District

Mrs. Jas Greer is a patient in the  
Bassano Hospital at present. She is  
doing very well.  
Gleichen and district had the first  
chinko wind this winter last week.  
The snow completely disappeared un-  
der the effects of the warm wind. Mon-  
day morning it turned about face with a  
slight snow storm and snow fell to a  
depth of about four inches.

Tom Johnston returned home after  
spending last summer and this winter  
in Nelson, B.C. Tom played hockey for  
Nelson all winter his team lost out  
in the playoffs. Tom came home to  
get a few pointers on how hockey  
is played by the Gunners.

1932 licenses are not moving out  
very fast. Constable Batts has re-  
ceive word to check up all cars and  
trucks after March 1st, that do not  
carry a 1932 license. Moral—to avoid  
trouble do it now.

The U.F.W.A. of Standard are putt-  
ing on a St. Patrick's dance and Tom-  
bolo in the Standard Hall on March  
17th. They are also giving away  
numerous prizes to the holder of the  
winning tickets which are to be drawn  
that night.

Cliff Bogatie is getting his arm into  
shape for the coming baseball sea-  
son.

Alberta was a tropical country last  
week. Some were skating, golfing  
and playing ball with the temperature  
70 above.

The train service from the coast  
stopped for a couple of days last  
week on account of heavy rains and  
snow slides in the mountains.

Bob Harrison returned from Drum-  
heller last week after spending a few  
days there on business.

Bill Taylor and Bob Dodgson re-  
turned from Winnipeg Sunday afternoon  
after taking a two months course in  
the military school there. Bill was  
anxious to get home to see the final  
hockey games and Bob was glad to  
get back to a warmer climate.

Mr. and Mrs. M. Murray spent the  
week-end in Calgary.

"Hell's Angels" may shock you but  
you'll never forget it. Dozens of  
planes waging a battle of death in  
the skies, a monstrous zeppelin steal-  
ing through the clouds in dead  
of night to bombard London. It's the  
greatest of all pictures, be sure to see  
it Saturday no extra charge for ad-  
mission.

Sir Malcolm Campbell, British speed  
king, hung up another record last week  
for racers to try to beat, by making  
253.968 miles an hour over a mile  
course. His previous record, unbeaten  
was 245 miles per hour over the  
same course.

"The trouble in the Orient has de-  
veloped into more than a con-  
trovery between Japan and China for it  
threatens to become a conflict be-  
tween nationalism and international-  
ism," declared Hon. Vincent Massey,  
following the completion of a lecture  
tour of all the important cities in  
Western Canada, in which he spoke  
to Canadian Clubs on the subject of  
the Manchurian crisis. "The natural  
method of conciliation between the two  
warring Oriental nations would have  
been an appeal to the international  
organizations that function for this  
purpose, but Japan has preferred to  
use her own methods of force in at-  
tempting a settlement," said the dip-  
lomat.

Wm. McConnell is a "puck-chaser".  
He accompanied the boys to Blairmore.

Since the British West Indies were  
brought "closer" to Canada by the  
Canadian National's liner and freight-  
er services, the Bahamas started grow-  
ing tomatoes on a big scale. Pro-  
ferential tariffs caused the Bahaman  
product to sell cheaper than others  
in Canada. This gave rise not only to  
a greater consumption of tomatoes  
in Canada, but to the idea of tomato  
juice drunk as a beverage daily. Tom-  
ato juice consumption in the United  
States has risen rapidly, due to the  
healthful qualities of the tomato, only  
recently appreciated in full. One  
American firm reports success with  
the idea of having a bottle of tomato  
juice delivered to customers along  
with the morning supply of milk and  
cream. This method of distribution  
is being considered in Canada.

Please keep March 26th, free for  
the St. Andrew's W. A. Easter sale.

## SILENT BIDDLE SPEAKS HERE THURS. MARCH 3RD

Silent Biddle, an ex-convict, will  
address an audience in the Gleichen  
Community Hall on Thursday at 8:30  
o'clock. The former prisoner, who  
has been greeted by large audiences  
in other cities, will describe the  
growth of juvenile crime throughout  
the country and attempt to elu-  
cidate the reasons for this spread of  
wrong doing.

Mr. Biddle lays the blame for much  
of the juvenile crime at the door of  
the home, pointing out that fathers  
have failed in their duties to their  
sons. Divorce which results in the  
breaking up of homes has also been  
a contributing factor. In many  
other cases the trouble is because the  
father himself has not lived a clean,  
wholesome life himself.

The temptation which boys have to  
face now are infinitely greater than  
twenty-five years ago. Of course  
there will always be a considerable  
amount of crime because of poverty, and  
living conditions and physical and  
mental defects.

The amount of crime, however is  
by no means due wholly to these  
causes. Far too many fathers are  
not giving their sons the companion-  
ship and the careful training and the  
strict discipline which they need.

## QUEER QUINTON'S QUILL

Queer Quinton, with his odd habits  
and peculiar ideas, wishes to join in  
the common enthusiasm for hockey  
and extend his congratulations to the  
Gleichen team, winners of the Inter-  
mediate Championship of Alberta. So,  
gentlemen, rise with me and drink to  
the Gleichen Gunners. God bless 'em.

March was ushered in like a lion  
early Monday morning when a bliz-  
zard swept over the country blocking  
the roads between here and Calgary.  
According to that March should go  
out like a lamb.

Mr. Smith and family of Nanton  
moved into the house recently vacat-  
ed by Mr. Mattson. Mr. Smith is  
in charge of the Crown Lumber Co.

In this week's issue of the Call  
is a tax sale notice of the Blackfoot  
Municipality. These farms will be  
offered for sale on Tuesday, March  
29th, subject to a reserve bid, unless  
the taxes are paid up before that time.

## Here and There

Figures of United States motor  
cars entering New Brunswick in  
1931, issued by the provincial bu-  
reau of information and tourist  
travel, show an 8 per cent. gain  
over 1930. The new record for  
1931 is 58,553 as compared with  
the former record of 54,068 for  
1930.

Approximately \$11,000,000 was  
saved in Canada last year in the  
cost of construction dwellings  
and other buildings in 31 cities  
owing to reduced cost of build-  
ing materials. Aggregate value in  
these cities of building permits  
was \$110,971,410.

The aid of Hon. O. Howard  
Ferguson, Canadian High Com-  
missioner in London and of Lord  
Beaverbrook will be sought by  
the Maritime Provinces representa-  
tives who left aboard S.S. Mont-  
calm from Halifax recently, in an  
effort to secure the lifting of the  
British Government's embargo  
on Canadian potatoes.

A railroad career that has seen  
many changes and covered much  
widely separated territory wit-  
nessed another movement when  
Robert E. Larmour, general  
freight agent, Canadian Pacific  
Railway, was transferred recent-  
ly from Montreal to Toronto. Mr.  
Larmour, aside from his railway  
duties, is well known as one of  
Canada's outstanding yachtsmen.

The largest shipment of Govern-  
ment-approved cockerels for  
any one breeder or hatcheryman  
in Canada arrived recently by  
Canadian Pacific special at Fer-  
gus, Ont., from Winnipeg to the  
order of J. G. Tweddle, of the  
former city. The birds were se-  
lected by government inspectors  
from the choicest flocks from  
British Columbia to Nova Scotia.  
During the last four years Mr.  
Tweddle has shipped an average  
of 200,000 chickens to various  
points between the Atlantic and  
Pacific.

Competition between truck and  
railroad service is shown in a  
new angle by a letter recently to  
a Reading paper, "Labor." A cat-  
tle raiser of Niobrara, Nebraska,  
tried out both methods, shipping  
cattle by truck and by railroad.  
On the railroad there was a shrink-  
age of 21 pounds for each animal;  
by truck there was a shrinkage  
of 9 1/2 pounds each. What the  
raiser saved on freight he much more  
than lost on the animals shipped by  
truck, where the value of the shrinkage  
amounted to \$13.14 on each ani-  
mal.

## Here and There

Grain shipments through the  
port of Halifax were nearly 400,  
000 bushels greater in 1931 than  
in 1930. Figures for the two years  
are: 1930, 731,995 bushels; 1931,  
1,126,787 bushels.

Gold production from Northern  
Ontario mines in 1931 is estimat-  
ed to have a value of \$43,000,000.  
Since mining began 25 years ago,  
these mines have produced to a  
value of \$395,000,000 worth of  
gold.

met these days. University of  
Alberta gives educational courses  
by radio four times a week, en-  
abling those unable to attend in  
person to have the university  
taken to them.

Total value of all field crops  
produced in Canada in 1931 is  
estimated at \$431,251,000, of  
which wheat accounts for \$108,  
786,000. Hay and clover is the  
next most valuable crop, being  
put at \$113,961,000.

A solid block of blue granite  
hewn from the side of Mt. Sir  
Donald, in the Canadian Rockies,

in the new Strathcona Memorial  
Building now being built at Yale  
University.

The five great branches of  
primary industry in Canada, as  
measured by the latest available  
statistics of value of production  
were agriculture, forestry, min-  
ing, electric power and fisheries,  
with the first having production  
greater than all the four others  
combined.
